Dear Program Director:

It was our pleasure to host a lecture by Johannesburg's Trevor Duffy at the start of his United States tour. The lecture was full of great practical and entertaining magic, and everyone walked away with something that they could add to their repertoire.

Trevor is a professional magician and this was apparent from the way he dressed, his pacing and keeping the lecture on time. He presented his material very well, he was very patient with his explanations and our membership appreciated his wealth of knowledge and experience.

Speaking on behalf of the membership of Ring 12, I would highly recommend a magic lecture by Trevor Duffy, you won't be disappointed.

Sincerely,

A handwritten signature in cursive script, appearing to read "Brian Blake".
